FISHING

After preparing our breakfast in our cabins we will depart for fishing at approximately 8:30 AM – We will fish 3 different lakes during the week –

- 1) Cormorant Lake – 3 days – a large lake about 7 X 15 miles - Great for large northern pike up to 24# and an abundance of walleye make this a must 2 day fishing spot.
- 2) Clearwater Lake – 1 day – One of only 6 true “blue water” lakes in the world is home to many Northern Pike and Lake Trout. It is a large lake –about 7 X 14 miles – and has bays and islands that we fish.
- 3) Bradley Lake – 1 day - a small lake that abounds in trophy sized

Smallmouth Bass. This is a catch and release lake.

We have lunch on the lakes – either sandwiches that we have packed or a shore lunch prepared by our guide from the fish that we have caught that morning.

We fish until about 6:00 and head back to camp for dinner, rest and relaxation.
